

DECOMMISSIONING, MOVES AND ASSET DISPOSAL

AJC has many years experience delivering change projects to its clients. From data centre moves & consolidations to full exits, our philosophy to a successful and trouble free project has always been one of compliance and fail-safe procedures. Our approach ensures our clients receive a professional solution, supported by skilled and seasoned engineers well versed in data centre move and decommissioning activities.

Any activity undertaken is agreed in our statements of work (SOW) and signed off by all parties. All aspects of the project are tracked and reported back to our clients throughout our engagement. AJC can support you from audit through to an end to end managed project, arriving safely and economically at your new location. Simplistically, let us know which of the below solutions we can help you with and we'll be your "safe pair of hands" in getting you there!

Data Centre Decommissioning and Exits –

Allowing realisation of the intended ROI of any DC decommissioning and exit projects ensuring a robust compliant process. Working alongside of BAU activity to drive the required outcome.

Data Centre Moves (Lift and Shift) –

Working with clients to seamlessly move equipment between data centres ensuring appropriate risk mitigation, compliance and procedures to secure your assets whilst on the move.

Data Erasure –

In a world of growing security, risk and compliance, we help our clients dispose of any unwanted or unneeded data. Whether from tapes or HDD's – ALL are erased and certificated on site whilst working in conjunction with your compliance team.

Shredding –

Following on from data erasure, AJC has a fully accredited fleet of secure compliant shredding trucks, ready to reduce your unwanted data media down to unrecognisable shards, at your site if required.

Secure Transportation –

Whether part of a wider services agreement or as a separate requirement, AJC has satellite tracked vehicles with all the required foam cases and transportation equipment to safely and securely handle your assets.

Asset Removal –

AJC can work to help you maintain a current CMDB, keep your DC environment clean and up to date by removing any unwanted assets in the appropriate certificated manner ensuring compliance.
